📍 Osijek, Croatia   🔤 English, Croatian

I am a Web developer with over 4 years of professional experience in Frontend. I have collaborated with large teams from around Europe following Agile and Waterfall processes. Software is my passion, so my free time is usually spent creating software products and open-source libraries.

Work experience

💼 Self-employed

⧗ 09/2024 - Present

🏢 Filibit ⧉

📍 Osijek, Croatia (remote)

- Created a CSS framework - Oxiris CSS
- Created three websites: oxiris.filibit.com, filibit.com and croatiashuttle.com
- Reduced maintenance cost for a client by conceiving and implementing a custom Content Management System (CMS)
- Designed secure Frontend systems that work with Next.js and Graphql

---

💼 Frontend developer

⧗ 01/2022 - 08/2024

🏢 Undabot ⧉

📍 Zagreb, Croatia (remote)

- Built and maintained over 20 web portals using React, Next.js and Angular 14+ in Typescript
- Increased profitability by implementing an interface for 3 different payment gateways
- Initiated plans for 5 internal tools that eliminated repetitive tasks
- Increased communication transparency by flagging unclear requirements among 20 people from 4 different countries
- Resolved software design problems by authoring technical documents, including ADRs and technical solutions
- Wrote hundreds of tests in Jest and Cypress

💼 Frontend developer

⧗ 11/2020 - 01/2022

🏢 Hammer ⧉

📍 Osijek, Croatia (hybrid)

- Developed and maintained UI of a fintech software product in Angular 10+ (Typerscript) and Blazor (C#)
- Collaborated with teams from Croatia and Switzerland
- Resolved blockers by migrating databases using Entity framework

Personal projects

Oxiris CSS	🔗 🐙	A lightweight CSS framework with a large set of utility and component classes. Ensures a good development experience and design consistency. Cutomizable and optimized for production.
must-be-valid	🐙	A Javascript validation and assertion library.
jsontypegen	🔗 🐙	A tool for generating concise Typescript types from any valid JSON input.
Abstraxo	🔗	A feature-rich software product for drawing mind maps. Powered by custom implementation of virtual DOM. Source is written with pure ES6+ Javascript.
subvent.js	🐙	A small javascript library for managing DOM event subscriptions.
